

## The best phone apps for caravanning:

### 1. AA Camping & Caravanning Guide

Here's an app that lets you search the AA's recommended caravan and camping sites in England Scotland and Wales. It features over 850 inspected sites with detailed descriptions including site facilities, images, price and location information.

**Free.**

### 2. Dish pointer Augmented Reality

An ingenious app to help you find the nearest television satellite in relation to your touring pitch. It's great if you're setting up at a site for the first time and are struggling to find a TV signal. Raise your phone to the sky while the application is running and it will show a real world view of where the satellites are, even if they're behind tall trees and buildings. **\$9.99**

### 3. Motorway services UK

Not only can you check to see what on-site shops and services are available at service stations up and down the country - users can also switch to satellite view and zoom in to check for caravan spaces and get an idea of the surrounding roads before arrival.

**£0.59.**

### 4. iCampsites

The iCampsites app lets users locate a campsite by name or location, or by using filters such as 'hardstanding' and 'hook ups available'. It currently claims to be the only campsites app with European coverage and is linked to a large database of reviews submitted by users.

**£2.39**

### 5. iBBQ

Hunt down your nearest butcher and check the weather forecast for the perfect bbq. This great app also had recipe ideas and gives handy tips on how to cook the perfect steak.

**£Free**
